THE END IS AT HAND.

If there is nothing in "indications," if public sentiment in the north can be read aright, and if there is any approximation to accuracy in republican estimates, then Harrison and Morton will be elected to-morrow. It does not seem possible that with the democratic disaffection to New York, with such an opposition against the felon in politics in that state, and with a united republican party, and with so many thousands of democrats bolting Cleveland on account of his opposition to the protected industries of the country, that Cleveland, free trade, and the liquor traffic can carry the day. It is conceded by everybody that the interior of the state will give one of the largest republican majorities ever known in the history of the party. It is estimated at from 75,000 to 90,000. The tremendous registration in New York city, gives the democrats hope of carrying modern Sodom by a majority ranging from 70,000 to 80,000, which in all probability would give them to the state. But there is hardly the shadow of a hope that the democratic majority will be within 10,000 or 15,000 of the democratic estimates. Cleveland's majority four years ago was but 53,000, and his strength has not increased since then except possibly in the growing registration which comes of foreign immigration. Anything below 65,000 majority in New York city, will certainly defeat Cleveland in the state.

The New York Sun, in making estimates, says that if Harrison will obtain the percentage of the Garfield vote, he will carry the state by 15,000; but if he receives only the percentage of votes got by Blaine he will lose it by 7,500. So it will be seen that from the estimates of either party, the vote will be exceedingly close.

While these conflicting estimates are being made, such dispatches as these are being sent from New York:

"BROOKLYN, N. Y., Nov. 3.—To Gen. Benj. Harrison: Blaine is here. Twenty thousand independent democrats, Irish-American and protestants, assembled in Brooklyn rank under the auspices of the Home and Country Protection Brotherhood of King's county, send you their warm greeting and assurances that they will reduce the democratic majority here to 15,000."

"Wst. H. Grace, President."

There are some republican figures in New York—men of cool judgment and great experience in making political estimates—who affirm that Harrison will receive 125,000 votes in New York city, and will carry the state by 40,000 or 50,000 majority.

The news from Indiana is fully as encouraging for the republicans as that from New York. The democrats cannot carry the state. A careful polling of the state shows that Harrison will have from 10,000 to 15,000 plurality. Two years ago with several disadvantages, the republicans carried the state by over 8,000 plurality; and it is no more than ought to be expected, that with no disadvantages and with hundreds of protection democrats coming out for Harrison, he can carry his own state by the plurality claimed by the republican leaders.

With anything like an honest vote in New York it would be impossible for the democrats to carry that state. The sentiment of the north is altogether for Harrison, because he represents republican principles. The old slave states and the lower order of democratic voters in New York city, are the only hope the democrats have.

SOME SIGNIFICANT QUESTIONS.

Is not the democratic party as much the southern party as in the slavery time?

Has not its southern sentiment been intensified by its southern secession?

Has it not made a great gain in political representation through emancipation?

Has it not made a great gain in the means of seizing and holding the national government by its suppression of elections in the south, wherever this is necessary to keep the south politically solid?

Has not this created a more effectual power than in the slavery time, for holding perpetual possession of the south, and for keeping that as a solid force in carrying the national elections?

Slavery was only a means used by the southern political leaders to make the southern states politically solid, and thereby of gaining permanent possession of the national government. Elsewhere they are not the same solid?

Is it not even a stronger force for gaining and keeping the political supremacy in the nation?

Is not the northern democracy as subservient as in the slavery time?

Are not the southern leaders pursuing the same way of supremacy in every branch of the national government—legislative, judicial, executive, diplomatic, army and navy, as in the slavery time, and are they not gaining all these by the service of the northern democracy?

WHAT PETER COOPER ONCE SAID.

Peter Cooper was a successful man. He saw nearly a hundred years of active life, and ought to have known something about economical subjects, since he was one of the greatest American iron manufacturers. In his law in Cooper Union, when he was within a few weeks of his ninety-second birthday, Mr. Cooper, Mayor, with his father-in-law, the way, said: "I wedged to bring upon our whole nation a fate similar to that which has fallen to the lot of Ireland, Turkey, Mexico, and Hindostan, it is only necessary to arrange our tariff in a way that will induce the people to have all their manufacturing done in foreign countries and pay for it with the raw material of our own. Such a policy will, if I am not mistaken, secure for us United States a rapid decline and fall as that which fell to the lot of Spain, when the Moors, their principal manufacturers, were driven out of the country. Such a policy might gratify our thirst for all the costly bought fancies and fashions of European life, but it would bring rain and wretchedness upon hundreds of thousands of mechanics of our country who have nothing to sell but their labor. To break up this diversified employment of so vast a number by a change of tariff, and then expect them to find for themselves other means of living, is about as reasonable as it was for Pharaoh to expect the Israelites to make bricks without straw."

VOTE EARLY, VOTE STRAIGHT.

The republicans should vote early to-morrow, and vote straight. There is a large registration, and as many votes as possible should be cast in the early part of the day. That should be done to avoid delay and confusion. In some wards it will require a vote a minute during the voting hours to clean the registry, and this being the case, the usual method of postponing the bulk of the vote until afternoon should be abandoned.

The republicans should bear in mind the importance of this election, and should not vote early, but should vote straight. The republican ticket is an exceptionally good one, from top to bottom. Every man on it is worthy the highest confidence of every man who believes in republican principles. Under such circumstances don't scratch your ticket any more than you would scratch your own political reputation. Stand by your colors, by your party and by your own political manhood.

Vote early, vote straight.

This "righteous indignation" which the democrats profess over the Sackville letter is a gross humbug. The leading spirit in the democratic campaign has been British interests. The following from one of their own organs, in reference to Wisconsin, is interesting:

Immediately after the national convention the democratic managers began flooding the state with pamphlets and other publications bearing upon the tariff issue. Payne and Nowell . . . were not long in discovering that the majority of the democratic rank and literature were wholly "labor" and other words were also of decidedly English orthography. They gathered a number of these documents and sent them over to London to a well-known congressman for investigation. This gentleman had no difficulty at all in determining that the COBDEN CLUB WAS RESPONSIBLE FOR THE AUTHENTICATION OF THESE DOCUMENTS AND THAT THEY WERE PRINTED AT A PATRONOSTER ROW ESTABLISHMENT.

If England could take such a bold hand in the interest of the democratic campaign, what harm is there in Lord Sackville sending out a democratic document under the seal of royal arms of Great Britain? He didn't do half as much in this direction as the Cobden club in London. Why then kick Lord Sackville?

The republican meeting at Racine at Saturday night thus described in a dispatch to the Milwaukee Sentinel:

RACINE, Nov. 4.—The grand closing of the campaign was held at Racine Saturday night, and a meeting was held at the Hotel New Haven, the residence of James J. St. John, it is estimated that fully 6,000 people were inside the room. The meeting exceeded in enthusiasm and numbers any demonstration ever held in the city. Mr. Fether entertained them for two hours in the most eloquent and forcible manner, raising the enthusiasm of the audience to the highest pitch. The republicans of Racine county are awake and promise results which will astound their opponents when votes are counted.

A week ago the democratic managers claimed New York by 40,000. On Friday they reduced their claim to 17,000, and on Saturday The World (democratic) put it at about 11,000, with this column's editorial expression: "The only certain thing is that New York, always a doubtful state, is this year more doubtful than ever." On Wednesday next the democratic papers will be compelled to put the 11,000 majority in the republican column.

Delicate mechanism dislodged and migrated.

The most delicate an intricate piece of mechanism in the human structure is the nerves. As the telegraphic wires transmit the electric force, so do these transmitt the nervous force, and the brain, where sensation ceases. Mental waste weakens this mechanism, sudden shocks paralyze it, but dispersion is its most charitable for. This too is utterly defeated by a number of toads, Hostetter's Saponaceous Balsom, and the lesser number of the stomach is soiled and bruised and nerves by restored tranquility and tranquility of the nerves impels in the instance, renewed vigor. A distinguished medical authority says, "The victim of nervous disquietude who finds choler at night and bromides by day a necessary should know that a cure must be sought among agonies which strengthens the nerves," and assuredly Hostetter's Saponaceous Balsom has proved to be the best of these. It is a compound, consisting of 100 parts of David Butler, Labor. Last vote for President—Cleveland, 54,931; Blaine, 76,003; St. John, 2,922.

Nevada will elect electors, Supreme Court, Legislature, and Congressmen, and vote upon eleven proposed amendments to the State constitution, which includes the power of the Legislature to regulate special legislation in certain cases, relate to the salaries of the members of the Legislature, abolish the office of Lieutenant-Governor, provide for the gubernatorial succession, retain the gubernatorial election of the members of the Legislature, provide certain revenues to educational purposes, provide for a special school tax and for the care of indigent persons, and prescribe the manner of conducting the census. Last vote for President—Cleveland, 5,075; Blaine, 7,781; Butler, 2,224; St. John, 1,571.

Hon. James Sutherland and B. F. Danowdile addressed an enthusiastic republican meeting at Emerald Grove on Saturday evening. Bradford will roll up her accustomed republican majority on to-morrow.

Whitewater Register—"Dr. J. B. Whiting Jr., of Janesville, has come to assist Dr. Miller in his office and take charge of his practice during a vacation which he intends to take before long."

The democrats, being badly worsted in the joint debate Saturday evening at Beloit between Mr. Malone and Mr. Doe, are to-day indutriously lying about it and endeavoring to prejudice Mr. Malone by misrepresenting what he said.

An alarm of fire was turned in from box 313 at 3:15 o'clock yesterday afternoon, which was without cause, the alarm being sent in by a couple of young ladies, who ought to have known better than to meddle with the box.

Six-hundred dollars, in bets of from twenty-five to fifty dollars, were put up to day at Gage & Littlejohn's saloon to bet on the election, but our ladies' genuine Dongola kid shoe at \$2.40 is equal in style and wear to any \$3 shoe on this market.

Twenty-five pounds for 75 cents. Ask your grocer for Norcross & Dob's pure buckwheat flour only 75 cents for twenty-five pounds. Insist upon having our flour and you will get the pure article.

If you can't get it at your grocer, we will deliver it from the mill without extra charge.

Owing to the large number of voters in the first and fourth wards, it is absolutely necessary that voters be on hand when the polls open. In order that all who are registered vote, there will have to be an average of three votes deposited every two minutes for the eight hours the polls are open. Don't wait, vote early, and vote for Harrison and protection to our home industries.

Cyrus Miner the republican candidate for the assembly, is unexceptionable, except in political sense—*Recorder of Sunday morning*. Thank you for acknowledging the truth. Why not follow your own inclination and elect Mr. Cyrus Miner by a unanimous vote? It is to men of unexceptionable character that the people look for first class representatives.

Mr. Frank Robinson, of Harmony

who has been spending several months in England visiting relatives and friends, arrived home on Saturday afternoon.

He had a pleasant voyage homeward, sailing on the steamship *Servia*, which landed him in New York on Saturday, October 27th. Mr. Robinson spent last week in New York state, and witnessed the great republican demonstration at Lockport. He arrives home in time to vote the straight republican ticket on to-morrow.

RE IS NOT MUCH AFRAID.

A Fairfield Farmer Who Is Somewhat Indignant.

Democratic seed, when sown in Rock county, falls upon stony ground. The other day a little of it was sown out in Fairfield. A democratic ticket, accompanied by the stereotyped circular stating that "this ticket was sent so that Mr. Wilkins might be able to vote for Cleverland" if he desired, without being obliged to brave the storm that an open departure from a party would cause. The democrats backed out because it was the night before election. What of that?

The democrats tried a little more bluff. They proposed to meet Monday night, that would be to-night. The matter then stood over until the next day when the republicans accepted to-night. That closed everything up. As soon as the republicans accepted their night the democrats backed out because it was the night before election. What of that?
